

THE CLARKE GROUP, a long established company which specialises in supplying high quality, competitively priced products to both the large property developers and to the one off house builder.

We supply a wide range of products to make your development / dream home a reality. Our highly trained and motivated staff are available to offer assistance and advice.

Shown below is a sample of the products that we can supply to your building project.

TIMBERFRAME HOMES

Certified by the National Standards Authority of Ireland (NSAI), Clarke timberframe will assist you in establishing your dream home.

ROOF TRUSSES

We design and manufacture roof trusses to the highest quality standards. Approved by NSAI Clarke roof trusses comply with all Irish standards and are manufactured to Irish Standard 193 and British Standard 6399.

PRE-HUNG DOOR KITS

Pre-hung door kits can save yourself time and labour costs. We offer a wide range of door types and ironmongery to suit all needs.

PRE-CAST CONCRETE PRODUCTS

All Pre-cast requirements for house construction including cills, lintels, flue gatherers, wall copings and pier caps.

RECONSTITUTED STONE

We manufacture reconstituted stone cills, quoins, string course, copings, pier caps, plinths, arches and window heads. In yellow granite, white granite, sandstone and natural grey they become instant features to enhance any home.

PAVING

With Clarke paving you can create the perfect patio, driveway or path. Our flagstones are all carefully selected to give an authentic look. Choose from sandstone, charcoal and natural grey or even mix them together.

PRE-STRESSED FLOORING

Clarke Pre-stressed concrete floors are made to BS 8110 Standards in our state-of-the-art factory. Clarke flooring is a fast and economic approach to floors in your home.

CONCRETE BLOCKS & READYMIXED CONCRETE

High quality concrete blocks manufactured to I.S.EN ISO 9001.

Readymixed concrete manufactured in accordance with the quality scheme for ready mixed concrete (QSRMC).

NATURAL STONE

We supply sandstone and limestone of superior quality from our own quarries in Ireland. Talk to us about your home, building, wall or garden feature.

SURFACING

Clarke surfacing has three tarmac manufacturing plants which will provide you with a quality product. Talk to us about surfacing work in any environment from a dual-carriageway to a private driveway. Our experienced surfacing crews will ensure the best quality finish around your home.
